# Out Standing

## Synopsis

*A real-life GI Jane story* - **THE BLACK C.A.P.E**

*Defying as it does the conventions of the feminist biopic, Out Standing delivers something much more powerful* - **EYE FOR FILM**

*The Handmaid's Tale alum Nina Kiri is herself outstanding in Mélanie Charbonneau's Out Standing* - **FLICKERING MYTH**

**Based on the incredible true story of female infantry officer, Sandra Perron.**

In 1995, after returning home from a peacekeeping mission in Croatia, Captain Sandra Perron—Canada's first female infantry officer—stuns the military by resigning abruptly. When a disturbing photo surfaces of her tied to a tree in uniform, apparently unconscious, questions spiral.

Pursued by journalists and a relentless military investigation, Sandra is thrust into a reluctant journey to confront buried traumas and the true cost of loyalty and sacrifice.

Refusing to label herself a victim, she reveals a story of fierce courage and resilience, uncovering the battles fought within her own ranks.
